# LYSAGHT YOURCOLOR™

COLOUR YOUR WORLD WITH CUSTOM COLOURS

Colour is all around us, providing an infinite palette of inspiration for architects, designers and building owners.

Now with the new LYSAGHT YOURCOLOR™ custom colour offer you can turn this inspiration into reality on your next building project.

These custom coloured LYSAGHT® steel products are all manufactured from 100% Australian-made Next Generation COLORBOND® steel.

Working in close partnership with BlueScope, the manufacturer of COLORBOND® steel, Lysaght is now able to supply its range of premium roofing and walling products in an almost limitless spectrum of custom designer colours.

LYSAGHT YOURCOLOR™

# COLOUR YOUR WORLD

As the trusted experience in steel, Lysaght is proud to make a world of colour available via its new YOURCOLOR™ custom colour offer.

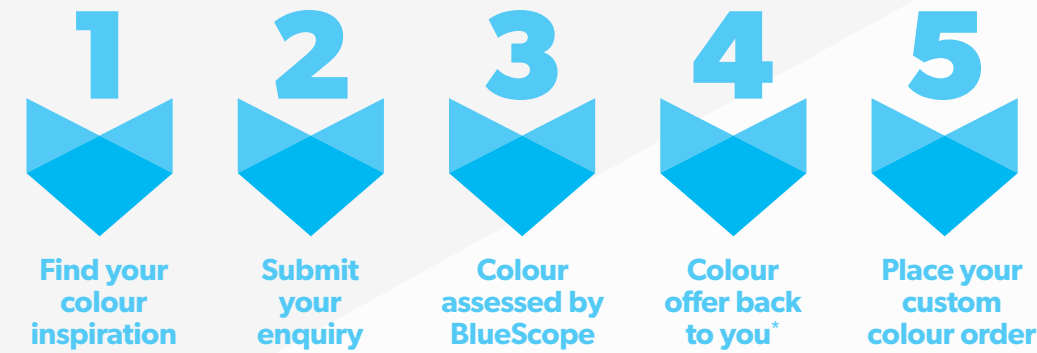

With this offer you can bring your design inspiration to life with:

- The LYSAGHT® range of concealed fixed roofing and walling products including the LONGLINE® 305 and KLIP-LOK® profiles available in an almost limitless colour range
- A core range of 42 pre-matched custom colours readily available
- The fast YOURCOLOR™ colour matching service to produce almost any colour, including metallic finishes
- LYSAGHT® steel products are manufactured from 100% Australian-made Next Generation COLORBOND® steel

## WE MAKE IT EASY FOR YOU

Either choose from one of our 42 pre-matched custom colours or create your own unique colour.

The LYSAGHT YOURCOLOR™ offer makes it easy for you to get the perfect colour for your next project.

\*In some cases the exact colour match may not be possible. In these rare instances we will recommend the closest possible match to your chosen colour.

## YOUR QUALITY GUARANTEE

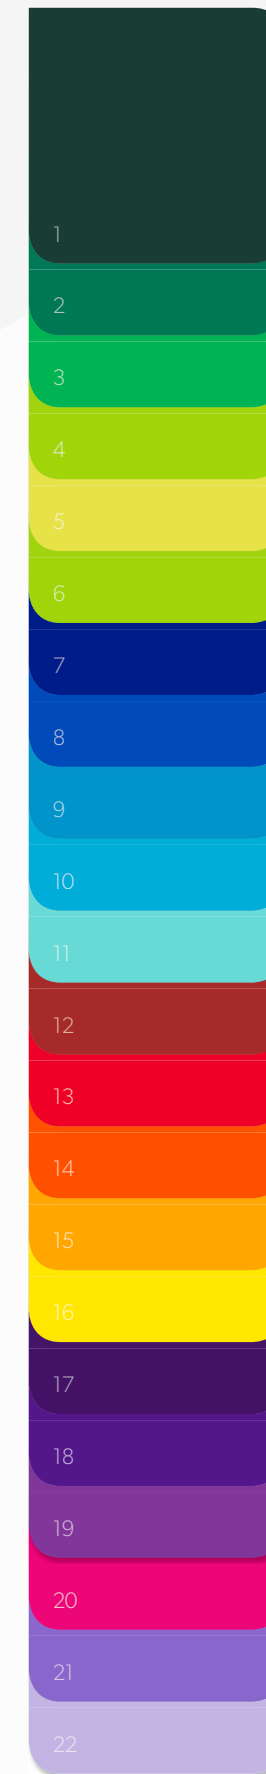

With the backing and support you've come to expect from Lysaght – Australia's trusted experience in steel.

The LYSAGHT® range of steel building products has been manufactured in Australia, for Australian conditions using COLORBOND® steel since 1966. The new custom colour range continues this great heritage.

A Lysaght Fit-For-Purpose warranty applies to all custom colour rollformed products from the LYSAGHT® range.

Additionally, a market-leading COLORBOND® steel warranty is available for all material supplied under the LYSAGHT YOURCOLOR™ offer. These warranties may vary depending on the final colour chosen, substrate and the end-use application.

Your experienced Lysaght representative can provide more information based on your specific project requirements.

## CASE STUDY MARGARET COURT ARENA

With the extensive redevelopment of Margaret Court Arena (MCA) in 2010 as part of the \$700 million Melbourne Park Masterplan, the architects were looking to make a bold statement with the design and colour of the innovative retracting roof, transforming the court into a multi-use stadium capable of hosting a wide range of sporting and entertainment events, while also increasing its capacity from 6,000 to 7,500.

Based on the project design and unique performance requirements, Lysaght's technical experts were able to recommend one of the pre-approved range of custom COLORBOND® steel colours – Pearlescent Copper Penny™ - which was then rollformed and supplied in the LYSAGHT KLIP-LOK® profile.

LYSAGHT KLIP-LOK® offers long spans and excellent uplift performance and features bold ribs and flat pans with micro-cross fluting for superior strength, making it perfect for low pitched roofs.

Designed as a unique system, the MCA roof has only two downturned operable trusses that span the width of the structure, supporting the bulk of the operable roof.

The enhanced versatility and inherent strength of LYSAGHT KLIP-LOK® fits in perfectly with the MCA's state-of-the-art retractable roof, which is the fastest of its kind in the world, opening or closing in just five minutes.
